

Adding Integers: Connecting Models to Algorithm

All positive	$4 + 6 = 10$	 Join forces!
All negative	$-4 + (-6) = -10$	 Join forces!
More negative	$4 + (-6) = -2$	 Battle!
More positive	$-4 + 6 = 2$	 Battle!

I do...	You do...		
$(-18) + 12 = -6$	$(-9) + 18 = 9$	$(-10) + 17 = 7$	$(-5) + 15 = 10$
$18 + (-12) = 6$	$12 + (-20) = -8$	$8 + (-12) = -4$	$20 + (-10) = 10$
$(-18) + (-12) = -30$	$(-20) + (-7) = -27$	$(-12) + (-4) = -16$	$(-15) + (-13) = -28$

Subtracting Integers: Connecting Models to Algorithm

Subtraction Expression $-2 - 4$		Counter Model  -6
Equivalent Expression $-2 + (-4)$		Counter Model  -6

Subtraction Expression $-5 - (-2)$		Counter Model 00000 (3)
Equivalent Expression $-5 + 2$		Counter Model 00000 00 (3)

Subtraction Expression $6 - (-3)$		Counter Model 000000 000 (9)
Equivalent Expression $6 + 3$		Counter Model 000000 000 (9)

I do...	You do...		
Join Forces: $(-18) - (12) = -30$	$(-9) - (18) = -27$	$(-10) - (17) = -27$	$(-5) - (15) = -20$
Battle: $(12) - (18) = -6$	$(12) - (9) = 3$	$(10) - (17) = -7$	$(5) - (15) = -10$
Double Negative is Positive $18 - (-12) = 30$	$12 - (-20) = 32$	$8 - (-12) = 20$	$20 - (-10) = 30$
Battle: $(-18) - (-12) = -6$	$(-20) - (-7) = -13$	$(-12) - (-4) = -8$	$(-15) - (-13) = -2$
