Day 8: Graphing Inequalities

The bag must be less than 10 inches wide to fit into the overhead compartment.

Define variable: $b = \text{bag width}$ **Inequality:** $b < 10$

Check off the numbers that are possible for the situation. Then graph.

1 ✓ 2 ✓ 3 ✓ 4 ✓ 5 ✓ 6 ✓ 7 ✓ 8 ✓ 9 ✓ 10 11 12 13 14 15

It costs more than 6 dollars to ride the go-karts.

Define variable: $c = \text{cost}$ **Inequality:** $c > 6$

Circle the numbers that are possible for the situation:

1 2 3 4 5 6 7 ✓ 8 ✓ 9 ✓ 10 ✓ 11 ✓ 12 ✓ 13 ✓ 14 ✓ 15 ✓

The temperature in Anchorage, Alaska is at most 12°F .

Define variable: $t = \text{temp}$ **Inequality:** $t \leq 12$

I ate ^{at least} ~~more than~~ 12 ounces of ice cream.

Define variable: $z = \text{ounces}$ **Inequality:** $z \geq 12$

Traffic on Great Oaks can travel at speeds of no more than 30 miles per hour.

Define variable: $s = \text{speed}$ **Inequality:** $s \leq 30$
