

Spatial Concepts of Geography Slideshow

Group Members

1. _____ 3. _____

2. _____ 4. _____

Objective

Your group will create a slideshow that identifies and shows examples of the spatial concepts of geography.

Grading

The slideshow will be graded according to the rubric provided and is a daily grade.

Instructions

- For each required concepts on the rubric, groups will find an image online that illustrates the concepts appropriately.
- Next to the image, **groups will write a sentence** that accurately explains how the image illustrates the concept, NOT THE DEFINITION.
- Divide the slideshow into one slide per bolded concept, one section for each of the required spatial concepts.
- Label each slide with the bolded concept according to which specific concept it illustrates.

Examples

Absolute Location

This image shows the absolute location of Austin by using latitude and longitude.

Flows

This image of a container ship shows the movement of goods, and therefore represents “flows”.

Grading Rubric

Each check = 1pt

Location

Absolute Location: appropriate image _____ accurate explanation _____

Relative Location: appropriate image _____ accurate explanation _____

Distance/Direction

Distance appropriate image _____ accurate explanation _____

Direction appropriate image _____ accurate explanation _____

Clustering/Dispersal

Clustering appropriate image _____ accurate explanation _____

Dispersal appropriate image _____ accurate explanation _____

Site/Situation

Site : appropriate image _____ accurate explanation _____

Situation: appropriate image _____ accurate explanation _____

Connectivity/accessibility

Connectivity : appropriate image _____ accurate explanation _____

Accessibility : appropriate image _____ accurate explanation _____

Centrality

Centrality : appropriate image _____ accurate explanation _____

Tobler's First Law of Geography

Flows : appropriate image _____ accurate explanation _____

Distance Decay : appropriate image _____ accurate explanation _____

Time-Space Compress: appropriate image _____ accurate explanation _____

Quality

Meets Expectations (1pt) _____

Beyond Expectations (2pts) _____, _____

Total Points:

Total Points x3.25= _____%
