

Migration, on the move

from the Esri GeoInquiries™ collection for Human Geography

Audience – Advanced human geography

Time required – 15 minutes

Activity

Evaluate migration at the global, regional, and local scales.

AP Objectives

IMP-2.A: Explain factors for contemporary & historical trends in population growth & decline.
IMP-2.C: Explain how different causal factors encourage migration.

Learning Outcomes

- Students will identify and explain why some regions of the world experience high and low net migration rates.
- Students will analyze the relationship between Lampedusa, Italy's relative location and refugee migration.

? Ask

Where are people leaving, and where are people going?

- Net migration is the difference in the number of people who immigrate to and emigrate from a country.
- Click the link above to launch the map.
- ? Which regions had the lowest net migration? *[Southeast Asia, Sub-Saharan Africa, and the Middle East.]*
- ? What push factors may cause the outflow of people? *[War, famine, overpopulation, unemployment, and natural disasters.]*
- ? Which regions experience the highest net migration rate? *[North America and Western Europe.]*
- ? What pull factors may cause this in-migration of people? *[Jobs, NGOs, and stability.]*

! Acquire

Where are the Schengen Treaty countries located?

- Click **Layers** on the dark toolbar.
- Turn off the layer **Net Migration Rate** by pointing your mouse at it in the **Layers** pane and clicking the eye icon that appears.
- Turn on the layer **Asylum seekers** by clicking its eye icon in the **Layers** pane.
- ? Which regions had the most asylum seekers in 2019? *[North America and Europe.]*
- Turn off the layer **Asylum seekers** and turn on the layer **Schengen Agreement**.
- Click **Bookmarks** on the dark toolbar. Select **Europe**.
- Click **Legend** on the dark toolbar to view the **Schengen Agreement** legend.
- Click the pin located near Germany and read the map note.
- ? How does the Schengen Agreement make the European Union a favorable destination for would-be migrants? *[The treaty functionally removes borders, so one pull factor into these countries is the ease of movement.]*

🔍 Explore

Why does Italy experience the largest number of refugee arrivals by sea?

- From **Bookmarks**, select **Mediterranean**. Open and read the map note near the southern tip of Italy.
- ? How does Italy's site and situation make it a main entry point for migrants? *[Site: location in southern Europe, Mediterranean islands; situation: location across from Africa]*
- ? How far is the mainland of Italy from North Africa? *[~ 250-300 miles.]*
- Choose the bookmark **Italy - Asylum**, then turn on the layer **Asylum Seekers, Italy**.
- ? In 2014, where were most of Italy's asylum seekers from? *[Afghanistan, Pakistan, West Africa, Bangladesh.]*
- ? Do any of the countries of origin surprise you, or not surprise you? *[Answers will vary.]*

more ►

Analyze

Where is Lampedusa, and why is it Italy's gateway to Europe?

- Choose the bookmark **Lampedusa 1**.
- Click **Basemap** on the dark toolbar. Select **Open Street Map**.
- ? Which country owns the islands? *[Italy owns the islands.]*
- Choose the bookmark **Lampedusa 2**, and use the **Measurement** tool to answer the questions below. (See tooltip below.)
- ? How long is the island east to west? How long is it north to south? *[The island is six miles east to west and two miles north to south.]*
- Change the basemap to **National Geographic Style Map**, then choose the bookmark **Lampedusa 3**.
- ? How far is Lampedusa from Tunisia? *[~ 80-90 miles]*
- ? How far is Europe from Africa? *[~ 80-90 miles]*

Act

What challenges does refugee migration to Lampedusa pose at different scales?

- Choose the bookmark **Mediterranean**.
- ? What challenges does the Mediterranean migration route pose to Lampedusa? *[It poses challenges related to housing, food, population density, and immigration control.]*
- ? What challenges does the Mediterranean migration route pose to the European Union and the international community? *[It poses challenges related to questions of responsibility, safety, housing, provisions, and immigration control.]*

MEASURE

- Click **Map tools > Measurement** on the light toolbar.
- On the map, click once to start measuring; click again to change direction; double-click to stop measuring.
- In the measurement window, select the units of measurement.
- Click **Map tools > Measurement** again to close the measurement window.

ZOOM TO A BOOKMARK

- Click **Bookmarks** on the dark toolbar.
- Choose a bookmark.
- The map changes location and scale to take you there.

Next Steps

DID YOU KNOW? ArcGIS Online is a mapping platform freely available to U.S. public, private, and home schools as a part of the White House ConnectED Initiative. A school subscription provides additional security, privacy, and content features. Learn more about ArcGIS Online and how to get a school subscription at <https://esri.com/schools>.

THEN TRY THIS...

- Have students research, create, and upload data about other high-entrance places to Europe, such as Ceuta and Malta.
