

balkaniya

Work with one or two other students to apply the following geographic concepts to the events surrounding the breakup of Yugoslavia.

nation - Serbs / Croats / Bosnians / Slovenes

nation-state - Slovenia / Serbs wanted to create a nation-state

multinational state - all except Slovenia

political ecology (relationship of environment) - rugged mts and absence of navigable rivers meant that there was no "central place" around which a nation could coalesce

cultural diffusion - Islam came to the region during the period of Ottoman rule. Communism after WWII /

ethnonationalism - an ethnic group wants to create a separate country for themselves - Serbs Slovenes Croats

irredentism - Serbs wanted to be reunited with Serbs across a political boundary - Serbs -

interfaith conflict - Orthodox Serbs vs Islamic Bosnians

intrafaith conflict - Orthodox Serbs vs. Catholic Croats

centripetal forces - Communism / Tito

centrifugal forces - language, religion, past grievances against Croats

supranationalism - NATO, United Nations, War Crimes Tribunal

devolution - Breakup

boundaries (classification) subsequent - after development of cultural landscape
consequent - Slovenia
superimposed - in Bosnia
diffusionary

definitional when to put Bosnia

ethnographic

boundaries -

Version of boundaries
 definition - treaty - legal definition
 delimitation - placed on the map
 demarcation - marked on the ground

→ having to do w/ origin / genesis
Geotic boundaries
 boundaries

Boundary disputes
 → definitional - legal law
 → locational - interpretation
 → operational - legal law
 → allocational -

antecedent - before - settlement
 subsequent - after boundaries
 superimposed - / ~~not~~ forcibly drawn
 w/o regard
 relict no longer functional, but
 still recognizable
